

DIRECTIONS to Heartland Preparedness Center

It's best to come in from the South on North New York street, if you use Google Maps for the Heartland Preparedness Center address it will take you to a gate that is not used and will not be open.

We suggest you use the Clean Harbors Environmental address, 2549 N New York Street, Wichita, KS 67219.

Off 21st St, you will turn at the Love's Truck Stop, the ICT 21 North Campus industrial park entrance. Continue north toward Clean Harbors. The business will be on your left as you drive towards the Heartland Preparedness Center, continue past and you will go under an overpass, just after that the Heartland Preparedness Parking lot will be in front of you. Park anywhere in the lot and come through the gate and into the building. There's usually a security guard that can buzz you in or will have the door unlocked. Ring the doorbell on the left, if not. You must sign in on their visitor log before entering the training room to the right of the entrance.
